

# Grasmere

A quality terrace awning does not necessarily have to be expensive. The Grasmere provides striking proof of this. Thanks to its excellent price/quality ratio and efficient semi-circular design. The unique anti-jam system ensures that the awning always closes perfectly from any position. The rock-solid retractable arms ensure a free space under the awning. By using high-quality materials, such as aluminum and stainless steel, this screen is an example of absolute durability. To give it a personal touch and match it to the surroundings you can choose from a wide range of acrylic fabrics.

## Characteristics
